3.2.1. Studying neoliberal conventions and documenting their effects. The concept of convention attracts attention to the many choices made to produce an accounting technique. 25 These choices consist of setting conventions: conventions for recognition, valuation, classification, and more... every single accounting operation is marked by the seal of some partly arbitrary choice between several ...

Critical accounting research and neoliberalism - ScienceDirect

We review the empirical accounting literature that focuses on banking, which is a relatively large industry specific literature. Potential explanations for the prominence of banks in accounting research include the prevalence of financial assets and liabilities in banks, the use of recognized accounting numbers in the prudential regulation of banks, and easier isolation and modeling of banks ...

Property, in the abstract, is what belongs to or with something, whether as an attribute or as a component of said thing. In the context of this article, it is one or more components (rather than attributes), whether physical or incorporeal, of a person's estate; or so belonging to, as in being owned by, a person or jointly a group of people or a legal entity like a corporation or even a society.

Property - Wikipedia

The purpose of accounting is to provide the information that is needed for sound economic decision making. The main purpose of financial accounting is to prepare financial reports that provide information about a firm's performance to external parties such as investors, creditors, and tax authorities.
