Your example works because you are passing the address of your variable to a function that manipulates its value with the dereference operator.. While C does not support reference data types, you can still simulate passing-by-reference by explicitly passing pointer values, as in your example.. The C++ reference data type is less powerful but considered safer than the pointer type inherited from C.

I'm alive because of Ayahuasca. I am connected, soulful, expanded, and spilling over with self-love, mostly because of the blessing of attending around 1,000 sacred plant ceremonies. But if my intuition proves correct, I will never drink Ayahuasca or any other plant medicine again. Why? Because it worked too well. Let me explain. The Standard Story: Ayahuasca Saved My Life When I first found ...

As Peter Heather puts it [The Fall of the Roman Empire, Oxford, 2006], Rome was now an "inside-out" Empire -- the center and the periphery had exchanged places (as illustrated in the animation at left). This transformation is scrupulously ignored in popular treatments of the Roman Empire, even in apparently well researched presentations on venues like the History Channel.

Trajan was most conspicuous for his justice, for his bravery, and for the simplicity of his habits. He was strong in body, being in his forty-second year when he began to rule, so that in every enterprise he toiled almost as much as the others; and his mental powers were at their highest, so that he had neither the recklessness of youth nor the sluggishness of old age.
