Cancer growth is a multistage, stochastic evolutionary process. To measure the divergent outcomes of tumors, we teamed up with the Winslow Lab to develop a new method that measures the growth of thousands of tumors within a single mouse using DNA barcodes, termed Tuba-seq. Tuba-seq measures tumor sizes far more precisely and rapidly than previous approaches, and demonstrates the importance of ...

Africa has the world's oldest record of human technological achievement: the oldest stone tools in the world have been found in eastern Africa, and later evidence for tool production by our hominin ancestors has been found across Sub-Saharan Africa. The history of science and technology in Africa since then has, however, received relatively little attention compared to other regions of the ...

Google Maps is a web mapping service developed by Google. It offers satellite imagery, aerial photography, street maps, 360° panoramic views of streets (Street View), real-time traffic conditions, and route planning for traveling by foot, car, bicycle and air (in beta), or public transportation.. Google Maps began as a C++ desktop program at Where 2 Technologies.

This established the first strong link between early cognitive development and the functions of a specific brain region. That gave encouragement to others that rigorous experimental work addressing brain-behavior relations was possible in infants. It also fundamentally altered the scientific understanding of PFC early in development; clearly it was not silent as accepted wisdom had held.
