Animal Reservoirs. A certain species of malaria called *P. knowlesi* has recently been recognized to be a cause of significant numbers of human infections. *P. knowlesi* is a species that naturally infects macaques living in Southeast Asia. Humans living in close proximity to populations of these macaques may be at risk of infection with this zoonotic parasite.

Defining race. Modern scholarship views racial categories as socially constructed, that is, race is not intrinsic to human beings but rather an identity created, often by socially dominant groups, to establish meaning in a social context. This often involves the subjugation of groups defined as racially inferior, as in the one-drop rule used in the 19th-century United States to exclude those ...

Race (human categorization) - Wikipedia

The Keith Williams Law Group Annual Scholarship seeks to help students who have fought through adversity in their lives in order to better themselves through education.
