The basic needs approach is one of the major approaches to the measurement of absolute poverty in developing countries. It attempts to define the absolute minimum resources necessary for long-term physical well-being, usually in terms of consumption goods. The poverty line is then defined as the amount of income required to satisfy those needs. The 'basic needs' approach was introduced by the ...

Use the Interactive Practice Tests (IPTs) to prepare for the Program Admission assessment. Each practice test allows you to answer one set of test questions to simulate what you will experience on the day of the test. It is approximately the same length as the actual test; however, the questions in the IPT are sample questions and do not appear on the actual test.
