This is a fascinating finding, as it tells us that vocabulary growth is drastically affected by the amount children read. By age 15, this has resulted in a difference of 5,000-6,000 words between each level, and children who read "lots" have almost double the vocabulary of children who read "not much". Obviously, this will affect school performance, SAT scores, and so on — and it's a ...

In generative linguistics, a lexis or lexicon is the complete set of all possible words in a language (). In this sense, child, children, child's and children's are four different words in the English lexicon. In systemic-functional linguistics, a lexis or lexical item is the way one calls a particular thing or a type of phenomenon. Since a lexis from a systemic-functional perspective is a way ...
