A simple worksheet to guide pupils through identifying the different types of energy, and drawing sankey diagrams

### **Energy transfers and Sankey diagram worksheet by olivia ...**

In a previous part of Lesson 1, work was described as taking place when a force acts upon an object to cause a displacement. When a force acts to cause an object to be displaced, three quantities must be known in order to calculate the work. Those three quantities are force, displacement and the angle between the force and the displacement.
