World History Industrial Revolution Test

The Industrial Revolution was a major shift of technological, socioeconomic, and cultural conditions that occurred in the late eighteenth and early nineteenth century in some Western countries. It began in Britain and spread throughout the world, a process that continues as industrialization. The onset of the Industrial Revolution marked a major turning point in human social history, comparable ...

History of the Industrial Revolution - New World Encyclopedia

The Industrial Revolution, now also known as the First Industrial Revolution, was the transition to new manufacturing processes in Europe and the US, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power and water power ...
