Non-neurogenic chronic urinary retention (CUR) can be challenging to diagnose and treat because there is no consensus on the criteria that define CUR. Associated with either underactive bladder or chronic outlet obstruction, the condition is important because CUR can be associated with hydronephrosis, renal failure, chronic urinary tract infections (UTIs), urinary incontinence, and can lead to ...

Non-Neurogenic Chronic Urinary Retention: Consensus ...

Trigone of the bladder. The internal urethral orifice (Ostium urethrae internum) and both orifices of the ureters (ostium ureteris right and left) limit the trigone of the bladder. The plica interureterica is a mucosa fold between the orifices of the ureters and helps to identify the orifices during transurethral ureteral catheterisation.

DESCRIPTION. Xolair is a recombinant DNA-derived humanized IgG1κ monoclonal antibody that selectively binds to human immunoglobulin E (IgE). The antibody has a molecular weight of approximately 149 kiloDaltons. Xolair is produced by a Chinese hamster ovary cell suspension culture in a nutrient medium containing the antibiotic gentamicin. Gentamicin is not detectable in the final product.

Xolair (Omalizumab): Side Effects, Interactions, Warning ...

Evidence suggests that many recurrences of UTI may actually be caused by an underlying bladder infection that came about due to ineffective initial treatment.. Frequent UTIs caused by persistent bladder infection are also referred to as chronic cystitis or chronic urinary tract infection. Note that while terms used for various urinary tract conditions may sound different, they could refer to ...
