Definition. The term problem solving means slightly different things depending on the discipline. For instance, it is a mental process in psychology and a computerized process in computer science. There are two different types of problems, ill-defined and well-defined: different approaches are used for each.

Prostitution law varies widely from country to country, and between jurisdictions within a country. At one extreme, prostitution or sex work is legal in some places and regarded as a profession, while at the other extreme, it is a crime punishable by death in some other places. In many jurisdictions, prostitution – the commercial exchange of sex for money, goods, service, or some other ...

1. Introduction. Heightened challenges from global competitors during the past 2 decades have prompted many US manufacturing firms to adopt new manufacturing approaches (Hall, 1987, Meredith and McTavish, 1992). Particularly salient among these is the concept of lean production (Womack and Jones, 1996; Womack et al., 1990). Lean production is a multi-dimensional approach that encompasses a wide ...

A random number is a number chosen as if by chance from some specified distribution such that selection of a large set of these numbers reproduces the underlying distribution. Almost always, such numbers are also required to be independent, so that there are no correlations between successive numbers. Computer-generated random numbers are sometimes called pseudorandom numbers, while the term ...
