As far as I'm aware there is no built in way in the testing framework for testing which version of the config settings you should be using. I'm using a wrapper class like the one you describe (which I'm sure you already know is simple to write), but mainly so that we can run our websites outside of the dev fabric.

Our district allows us to look at the actual test from the year before. Find out if you are allowed to do this. We aren't allowed to copy anything or to use an actual test question that we remember but it gives you an idea of what is required and the way the questions are posed to the children so you can be sure they understand what is being asked of them.
