This lesson is the first of a three-part series in which students explore bacteria and our relationship with them. In The Ecology of Your Skin 1: Bacteria that Live on the Skin, students explore the concept of interdependence of life in the context of our relationship with bacteria.

The Ecology of Your Skin 1: Bacteria that Live on the Skin ...

Antimicrobial resistance (AMR or AR) is the ability of a microbe to resist the effects of medication that once could successfully treat the microbe. The term antibiotic resistance (AR or ABR) is a subset of AMR, as it applies only to bacteria becoming resistant to antibiotics. Resistant microbes are more difficult to treat, requiring alternative medications or higher doses of antimicrobials.

Antimicrobial resistance - Wikipedia

For the topic of Microbial Control (killing microbes), students will be designing and completing their own experiment on a microbial control. Before beginning this experiment, you must discuss what you plan to do with your instructor and pick up the supplies that you will need in lab.
