Mechanical Energy. Mechanical energy is often confused with Kinetic and Potential Energy.We will try to make it very easy to understand and know the difference. Before that, we need to understand the word 'Work'. 'Work' is done when a force acts on an object to cause it to move, change shape, displace, or do something physical. For, example, if I push a door open for my pet dog to walk ...

Plants have different structures that serve different functions in growth, survival, and reproduction. The functions of plant parts include the roots which hold plants in place and absorb water, seeds which make new plants, leaves which make food for the plant, and stems which hold the plants upright and transport materials up and down the plant.

BatteryStuff Tech I would be cautious at selecting the 5 watt panel unless you can be sure the parasite draw coming off those batteries is less than .5 amps a day. The Battery Tender unit only puts 270 mA (.2 Amps) an hours, so about 1 to 1.5 amps a day if in direct sunlight for 4-6 hrs. I have some customers that can get away with that small panel, but most move at least a 10 to 15 watt per ...
