The Bulldozer is the cheapest bulk shifter of soil and rock available, over short distances up to around 30 metres. Its "bucket", the blade, has only one side and uses the ground for its bottom. It fills in a few seconds and can empty just as quickly, but it can only push its load around on the ground.

Keywords: Energy audit, auditing types, instruments, opportunities, pay back periods.

INTRODUCTION: An energy audit is an inspection, survey and analysis of energy flows for energy conservation in a building, process or system to reduce the amount of energy input into the system without negatively affecting the output. It shows where the power consumption is more in the given system. It can also ...

These two examples illustrate how society's pervasive negative attitude about disability—which I term ableism—often makes the world unwelcoming and inaccessible for people with disabilities. An ableist perspective asserts that it is preferable for a child to read print rather than Braille, walk rather than use a wheelchair, spell independently rather than use a spell-checker, read written ...
