To decide to be an accountant is no more descriptive than deciding to be a doctor as there are a variety of specialty areas. Many accountants engage in the practice of public accounting, which involves providing audit, tax, and consulting services to the general public. To engage in the practice of public accounting usually requires one to be licensed.

Information systems (IS) are formal, sociotechnical, organizational systems designed to collect, process, store, and distribute information. In a sociotechnical perspective, information systems are composed by four components: task, people, structure (or roles), and technology.. A computer information system is a system composed of people and computers that processes or interprets information.
