Most curricular materials in TeachEngineering are hierarchically organized; i.e., most hands-on activities are part of lessons, lessons are grouped into multiday curricular units and these again are bundled into subject areas. Some activities or lessons, however, were developed to stand alone, and hence, they might not conform to this strict hierarchy.

Bacteria Transformation - Activity - TeachEngineering

LabBench Activity Water Potential. Because you will be working with potato cells in the laboratory, you need to understand the concept of water potential. Biologists use this term to describe the tendency of water to leave one place in favor of another.

Quiz & Worksheet - Continuous & Discontinuous Variation ...

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.

How to Write Guide: Sections of the Paper - Bates College

The word "atom" is derived from a Greek word for "uncuttable". Atoms are thought to be the smallest particle of a single element. There are smaller parts to an atom, but the makeup of an atom determines the properties of an element.

5 Paragraph Dog. the world over. Of these global pets, such as cats, dogs, fish, and birds, the best pets tend to be dogs. Dogs are the best pets because they make great companions, they are very intelligent beings, and they come in all shapes, sizes, and temperaments to meet the needs of all sorts of people. The first reason why dogs are the best pets is that they are good companions.
