Aberthaw Power Station is a series of two coal-fired power stations on the coast of South Wales, near Barry in the Vale of Glamorgan. It is located at Limpert Bay, near the villages of Gileston and West Aberthaw. The current power station on the site, Aberthaw B Power Station, co-fires biomass and as of 2008 has a generating capacity of 1560 megawatts (MW).

Aerodynamics, from Greek ἀήρ aer (air) + δυναμική (dynamics), is the study of motion of air, particularly as interaction with a solid object, such as an airplane wing. It is a sub-field of fluid dynamics and gas dynamics, and many aspects of aerodynamics theory are common to these fields. The term aerodynamics is often used synonymously with gas dynamics, the difference being that ...

The second session, held by PhD candidate Beatrice Gobbo, was even more interactive for the audience: mainly focused on the use of CrowdTangle, Netvizz, and RawGraph, combined them in a short tutorial to address a simple data collection and visualization. This hands-on approach helped some of those present to actually visualize their own datasets at the end of the meeting.

A space station is basically a spacecraft with no propulsion. Which boils down to just the habitat module and the payload. Like any other living system, the internal operations of a space station can be analyzed with Living Systems Theory, to discover sources of interesting plot complications. Much like spacecraft, in a science fiction story a space station can become a character all by ...

Anthony is a good friend from way back in the early days of TWC. He worked with me and many

others on a comprehensive overview of Temperature issues here. He also undertook a volunteer effort with many in the field to evaluate station siting, finding most did not meet the NOAA standards - which he then worked with a team of climatologists to examine (shown below).
