Wireless Intercom System for Facility-Wide 2-Way ...

1977. FCC authorizes developmental cellular systems launch in Chicago and the Washington, D.C./Baltimore region. 1974. The FCC revises its cellular allocation from 75 MHz to 40 MHz, restricts eligibility to wireline carriers, and adopts a one system per market policy because of its belief that technical complexity and expense would make competing systems in a market unviable.

Wireless History Timeline

Bluetooth is a wireless technology standard for exchanging data between fixed and mobile devices over short distances using short-wavelength UHF radio waves in the industrial, scientific and medical radio bands, from 2.400 to 2.485 GHz, and building personal area networks (PANs). It was originally conceived as a wireless alternative to RS-232 data cables.

I love your newly remodeled store! It looks and feels professional in comparison to the other. Your employees are top notch and know how to react on accounts or questioning new products, along with switching from a previous company to AT&T. Staff is friendly, patient and takes that extra stress out of this technical world!

If you're more interested in checking on your kids or spotting packages instead of keeping an eye out for prowlers, the Netgear Arlo Pro 2 is also a great pick. While it can't record continuous motion (without a subscription) and often leaves gaps of a few seconds in between video clips—making it less desirable as a security camera—it is otherwise the best battery-powered unit we tested.
