A worked solution to a problem similar to the Hannah's sweets question that went viral in the 2015 Edexcel Maths Examination. I have also included a couple alternative ways of doing it that I would refer to as 'the easy way' in a separate files (using the quadratic equation and solving by factorising).

During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.
