When asked what I would like to write about for this issue of the Dot Connector, the first thing that came out of my mouth was "The Golden Age and how we got from there to where we are now and what it all means." That is the topic that has been exercising my thinking for a number of years and I gave it an overview in Witches, Comets and Planetary Cataclysms (DCM Issue 11), where the topic was ...

Physics (from the Ancient Greek φύσις physis meaning "nature") is the fundamental branch of science. The primary objects of study are matter and energy. Physics is, in one sense, the oldest and most basic academic pursuit; its discoveries find applications throughout the natural sciences, since matter and energy are the basic constituents of the natural world.
