In mathematics, smooth functions (also called infinitely differentiable functions) and analytic functions are two very important types of functions. One can easily prove that any analytic function of a real argument is smooth. The converse is not true, as demonstrated with the counterexample below.. One of the most important applications of smooth functions with compact support is the ...

Emojis are pictures commonly used in texting. The use and type of emojis has increased in recent years; particularly emojis that are not faces, but rather objects. While prior work on emojis of faces suggest their primary purpose is to convey affect, few have researched the communicative purpose of emojis of objects. In the current work, two experiments assess whether emojis of objects also ...
