Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Hi Joe - Yes, we are talking about the same test and the evidence would suggest that you are taking far too much vitamin D. The "standard range" or "reference range" which appear on blood test reports are not based on the expert recommendations of the Institute of Medicine of the National Academies, but reflect levels which the lab has found in 95% of a "healthy" population.

How to Increase Vitamin D Levels | ConsumerLab.com
