Meaning you will have something like a 36-inch wall cabinet with a 12 to 18 inches of high smaller cabinet on top of it. The cabinetry does not go to the ceiling and there is a large open area between the top of the cabinetry and the ceiling. It is not uncommon to see people decorate this open area with knick-knacks or plants.

When Should Cabinetry Go to the Ceiling?

Trim and molding are decorative wood work that is used to embellish the floors, walls, and ceilings of homes. While the purpose is generally decorative, they may also be used to hide gaps that occur where a floor and wall or ceiling and wall aren't flush. Once installed, the trim can also provide minor reinforcement to the overall structure.
