Gender is the range of characteristics pertaining to, and differentiating between, masculinity and femininity. Depending on the context, these characteristics may include biological sex (i.e., the state of being male, female, or an intersex variation), sex-based social structures (i.e., gender roles), or gender identity. Many if not most societies use a gender binary, having two genders, men ...

The origins of Palestinians are complex and diverse. The region was not originally Arab - its Arabization was a consequence of the inclusion of Palestine within the rapidly expanding Arab Empire conquered by Arabian tribes and their local allies in the first millennium, most significantly during the Islamic conquest of Syria in the 7th century. . Palestine, then a Hellenized region ...

Historical Perspective. Before the National Institutes of Health began their research in the 1980's, the only definition of dyslexia was an exclusionary one. If a child's difficulty with reading could not be explained by low intelligence, poor eyesight, poor hearing, inadequate educational opportunities, or any other problem, then the child must be dyslexic.
