Odor From Washing Machine. Washer smells foul...this is often a build up of soap, water, too many chemicals and this has left a residue, and the mildew moves right in and it stinks.

Odor From Washing Machine | Appliance Aid

This is the most common symptom we hear on all brands of dryers. One of the appliance parts most of us suspect first is the heating element (see common Whirlpool elements below), but there are several other appliance parts on the dryer and one item that is not on the dryer that can produce the same symptom. You will save time, energy, and money if you will take a few moments to prove exactly ...
