This article presents a model of reflective writing used to assess a U.S. general education first-year writing course. We argue that integrating reflection into existing assignments has three potential benefits: enhancing assessment of learning outcomes, fostering student learning, and engaging faculty in professional development.

The three-fold benefit of reflective writing: Improving ...
Information and communications technology (ICT) is an extensional term for information technology (IT) that stresses the role of unified communications and the integration of telecommunications (telephone lines and wireless signals) and computers, as well as necessary enterprise software, middleware, storage, and audiovisual systems, that enable users to access, store, transmit, and manipulate ...

This is not at all related to Machine Learning. I lived in Squirrel Hill as a graduate student at Carnegie Mellon so the massacre there is feeling particularly immediate. While the person who did it is obviously culpable, the pattern of events makes it clear that others bear responsibility as well.
