Graph the equation y 2 x 4, 3 and find the domain and range. Is the equation discrete or continuous? Does the equation represent a function? Make a table of values to find ordered pairs that satisfy the equation. Then graph the ordered pairs. The domain and range are both all real numbers. The equation can be graphed by line, so it is continuous.

Writing Linear Equations. In the previous unit, Graphing Equations you learned how to graph linear equations on a coordinate grid. In this unit, we are going to reverse that process and write equations to match a graph or a word problem. This unit is very important, because in many real life situations, you will not be given an equation to solve.
