How do I point clients to the NTP server? - Server Fault

If you turn off NAT it will also turn off DHCP allocation, the router will expect the upstream to be providing IP addresses. In most cases this will only work for one IP address, although a lot of ISPs let you buy more IP addresses off them.

home networking - How will a router with NAT disabled ...

Identifying the type of dam you are responsible for and understanding potential failure modes for that type of dam is an important first step to improve dam safety. Equally important is knowing the warning signs for failure modes and how to effectively respond to them. Performing regular dam inspections is critical for early problem identification and intervention.
