Magic Square Worksheets - Math Salamanders

You could certainly use a "trial and error" approach and get a correct solution to the 3x3 magic square, but it sounds like you've tried that without luck, so let's try a more methodical approach. One way a 3x3 magic square can be constructed is by using a little simple arithmetic and algebraic reasoning.

Math Forum - Ask Dr. Math

Best Answer: 3x3 Magic Squares typically include the integers 1-9 so that each row, column and

diagonal add up to 15. In this case, the Magic Square is using fractional values. The common denominator seems to be 1/8, so the square will contain the values {1/8, 2/8, 3/8, ..., 9/8}, and each row, column and diagonal will add up to 15/8.
