The point made above about the suitability — to you — of candidate nameservers is a crucial one, since everything is about where you are located relative to the nameservers being tested. You might see someone talking about how fast some specific DNS nameservers are for them, but unless you share their location there's absolutely no guarantee that the same nameservers would perform as well ...

GRC's | DNS Nameserver Performance Benchmark

v1.14 (31 January 2017): Version 1.0 of the SPC-1 benchmark has been retired, but the results are still visible on the SPC web site. The final revision of the version benchmark specification is retained to provide proper context for the review of those results.
