A Guide To Mysql Answers

For information on how to use replication in such scenarios, see Section 17.3, "Replication Solutions". MySQL 8.0 supports different methods of replication. The traditional method is based on replicating events from the master's binary log, and requires the log files and positions in them to be synchronized between master and slave.

MySQL :: MySQL 8.0 Reference Manual :: 17 Replication

This chapter describes how to obtain and install MySQL. A summary of the procedure follows and later sections provide the details. If you plan to upgrade an existing version of MySQL to a newer version rather than install MySQL for the first time, see Section 2.11, "Upgrading MySQL", for information about upgrade procedures and about issues that you should consider before upgrading.

MySQL :: MySQL 8.0 Reference Manual :: 2 Installing and ...

Allowing unrestricted access to MySQL on a public IP not advised but you may change the address it listens on by modifying the bind-address parameter in /etc/my.cnf.If you decide to bind MySQL to your public IP, you should implement firewall rules that only allow connections from specific IP addresses.

How to Create a Database in MySQL. This wikiHow teaches you how to create a database in MySQL. In order to create a database, you'll have to open the "mysql" command line interface and enter your database commands while the server is...

How to Create a Database in MySQL (with Pictures) - wikiHow

I'm pretty sure in most simple cases AND is the correct search. If a user bothered typing in a word, they probably want it to to show up in the result 90% of the time. Think Google search: [+"bob" +"hope"] which would be absolutely useless as an OR search. And pardon Google for the completely ridiculous quoting requirements in semi-useful searches.
